Editor Intelligener:

I propose, with your permission, to write a series of short articles on the Sabbath question. I am led to this by the efforts that are now being made by many, including many of the secular papers, to overthrow the faith of God's peopers. abrogate the Sabbath.

This effort is not confined to open and avowed infidels who reject the Divine nuthority of the Scriptures, but is participated in by many who, whilst giving a quariassent to their authority, yet so pervert them as to find in them no authority for the observance of the Sabbath iday. Many who are nominally Christians, and perhaps many who are Caristians in fact, have been led to embrace the error that the Sabbath was an institution that effort is not confined to open and hat the Sabbath was an institution that was peculiar to the Jewish economy, and herefore passed away with that econ-

GROWING DISREGARD OF THE DAY. GROWING DISTRIBUTED THE REPORT OF THE STATE OF THE SHORT of the population, especially in and cities, in this nominally Chris d, together with the many open grant examples of its profanaad flagrant examples of its profanaon that are seen all around us, and that
to tolerated and even participated in
the members of all our churches,
ow that the poison of this error is begin-difously infused; even into the
art of the church. It is now time that
to look to our ways in this matter, and unize carefully the foundation of It has often been shown, and can be

hown again, that the honest, faithful, sin-ere observance of the Sabbath is highly seneficial to man in all his interests. NECESSITY FOR A DAY OF REST.

NECESITY FOR A DAY OF REST.

It has been conceded by all who are acquainted with man's constitution that he needs seasons of relaxation. Not only does his body need intervals of rest, but his mind as well; and not less beneficial is the influence of this relaxation from worldly toils and cares on his moral well-being.

being.

It could ensily be shown by following up the history of individuals, as well as of communities, or States, that the conscientious observance, of the Sabhath, as a day of sacred rest, secures the highest and best development of character as well the highest measure of worldly sucas the highest measure of worldly success; in other words, that man's best interests, both for time and eternity, are promoted by its observance. I will not, however, stop for arguments of this kind, because unless it can be shown that the Sabbath was instituted by the Creator, to be observed by all men in all ages, it can have nothing authoritative in it.

However salutary its observance may have proven, no government would have a right to require its observance. It could only be a matter of individual choice or convenience. As I am writing not for infidels, I shall take it for granted that my readers accept the Scriptures

ed that my readers accept the Scriptures as the word of God, and hence that they with them the sanction of Divine Armity. I shall therefore write with ant reference to this authority, rhich I regard as supreme THE BIBLE ALONE AS AUTHORITY.

The opinion of men, whether good or bad, shall have no weight with me, whenever they cannot find a solid foun-dation on the revealed will of God. Hence I shall continually appeal to the Scrip-tures as the only rule of faith and prac-tice on this as on all other subjects of a

religious character.

I propose to prove, first, that the Sabsath was sanctified, or set apart from the beginning of the world, and was intended to be held equally holy under the Patriarchal, the Jewish and the Christian dispensations. In doing this I sliall necessarily show that those who think it was peculiar to the Jewish dispensation have a very superficial acquaintance with the Scindings. us character.

THE SABBATH QUESTION.
Is its Observance Binding on Christians as a Divinely Appointed Institution?

A FEW WORDS TO FEEBLE AND DELI-CATE WOMEN:

A FEW WORDS TO FELEX AND JELICATE WOMEN:

By R. V. PIRICE, M. D., of the World's Dispensary, Buffalo, N. Y., Anthor of "The People's Common Sense Medical Adviser," etc., etc.
Knowing that you are subject to a great amount of suffering, that delicacy on your part has a strong tendency to prolong it, and the longer it is neglected the more you have to endure and the more difficult of cure your case becomes, I, as a physician, who am daily consulted by scores of your sex, desire to say to you, that I am constantly meeting with those who have been treated for their ailments for months without being benefitted in the least, until they have become perfectly discouraged and have almost benefitted in the least, until they have a come perfectly discouraged and have almost made up their mind never to take another dose of medicine, or be tortured by and further treatment. They had rather die and have their sufferings ended than to live and suffer as they have. They say they are worn out by suffering, and are only made worse by treatment. Of any thing more discourby treatment. Of any thing more used aging, we certainly cannot conceive, and were there no more successful mode or reating such difficulties that that, the principle of the production of the production and dewere there so more successful motor con-treating such difficulties than that, the prin-ciples of which teach the reducing and de-ploting of the vital forces of the system, when the indications dictate a treatment directly the reverse of the one adopted for them, their case would be deplorable in-deed. But, lady sufferers, there is a better and far more successful plan of treatment for you; one more in harmony with the laws and requirements of your system. A harsh, irritating caustic treatment and strong med-cines will never cure you. If you would use rational means, such as common-sense should dictate to every intelligent lady, take such medicines as embody the very hest invigorating tonies and nervines, com-nounded with special reference to your dei-teate system. Such a happy combination you will find in my Favorite Prescription, which has received the highest praise from thousands of your sex. Those languid, tire-

which has received the highest praise from thousands of your sex. Those languid, tiresome sensations, causing you to teel scarcely able to be on your feet or ascend a flight of stairs; that continual drain that is sapping from your system all your former elasticity, and driving the bloom from your checks; that continual strain upon your vital forces that renders you irritable and fretful,—may all be overcome and subdued by a persevering use of that marvelous remedy. Irregularities and obstructions to the proper working of your system are relieved by this mild and safe means, while periodical pains, the existence of which is a sure indication of serious disease that should not be neglected, readily yield to it, and if its use be kept up for a reasonable length of time, the special cause of these pains is permanently removed. Further light on these subjects may be obtained from "The People's Common Sense Medical Adviser," in which I have devoted a large space to the consideration of all forms of diseases peculiar to your sex. This work will be sent (post-paid) to any address on receipt of \$1.60. My Favorite Prescription is sold by druggists. ands of your sex. Those languid, tir

I propose to make my articles as concison as possible, and earnestly bespeak for them a careful and candid consideration at the hands of a Christian public, and particularly would I ask this at the hands of all together.
